

DeCanal represents modern, versatile and traditional wines from Veneto region.

PROSECCO

DOC

VINO SPUMANTE BRUT

Grapes:

Glera.

Vineyard:

The grapes are selected in the Prosecco Doc area in Veneto.

Harvest:

September.

Vinification:

It is produced under the charmat method: after the still wine is made, another batch of yeast and sugar is added, resulting in a secondary fermentation which occurs in a closed and pressurized tank. This process preserves the fruit personality of the grape.

Winemaker's notes:

Brilliant straw yellow colour with delicate perlage. On the palate it delivers ripe assorted apple, pear, some citrus and a dash of nutty almond flavouring.
